CAREER OBJECTIVE

Aspiring Full Stack Developer pursuing a B.Tech in Computer Science and Engineering, seeking to apply strong foundations in frontend development and problem-solving to build scalable, real-world applications. Passionate about crafting clean, user-friendly interfaces and writing efficient, maintainable code, with hands-on experience building projects using React, TypeScript, and modern web tooling. Eager to contribute to a dynamic engineering team, take on challenging real-world problems, and grow as a developer while continuously learning modern web technologies and industry best practices.

TECHNICAL SKILLS

Languages: C, Java, Python, HTML5, CSS3, JavaScript, TypeScript

Frameworks/Libraries: React.js, Vite, TailwindCSS, Lucide React

Developer Tools: Git, GitHub, Figma

Core Focus Areas: Frontend Development, Scalable Backend Architecture

PROJECTS

Password Generator — React, TypeScript, Vite, Tailwind CSS [Repo](#)

- Built a client-side password generator using React, TypeScript, Vite, and Tailwind CSS.
- Implemented adjustable password length (6-32 characters) and toggleable character sets (uppercase, lowercase, numbers, symbols).
- Added a live password-strength estimate, one-click clipboard copy, and instant regeneration without resetting settings.

Avi-ate Music Player — React 19, TypeScript, Vite, Tailwind CSS v4, Lucide React [Repo](#)

- Built a modern music player using React 19, TypeScript, Vite, and Tailwind CSS v4 with a dark, animated UI.
- Developed a floating vinyl-pill controller with play/pause, skip, rewind, shuffle, and cycleable repeat modes.
- Implemented a slide-out queue drawer, favorites system, volume control, and a glassmorphic options menu using Lucide React icons.

Crypto Project — JavaScript [Repo](#)

- Built a project exploring cryptocurrency-related data and interactions using JavaScript.
- Applied core programming concepts to handle dynamic data on the client side.

POSITIONS & INTERESTS

- Currently leading the Content-Creation Team as Team Lead at Computer Engineers' Society (CES).
- Actively exploring Frontend Development, C Programming, and open-source collaboration on GitHub.
- Aspiring Full Stack Developer, currently building projects in full-stack web development.

ACHIEVEMENTS AND AWARDS

- 2nd Runner-Up at Smart India Hackathon (SIH) 2025 Finale, ranking among the top 3 out of 800+ competing teams nationwide.
- Runner-Up at Internal Smart India Hackathon (SIH) 2025, out of 40+ competing teams.

EDUCATION

Siliguri Institute Of Technology

Bachelor of Technology in Computer Science and Engineering

Aug 2024 - Present
