EDUCATION

Siliguri Institute of Technology

Bachelor of Technology in Computer Science and Engineering

Aug 2024 - Present

TECHNICAL SKILLS

Languages: C, Java, Python, HTML5, CSS3, JavaScript, TypeScript

Frameworks/Libraries: React.js, TailwindCSS

Developer Tools: Git, GitHub, Figma

Core Focus Areas: Frontend Development, C Programming, Python

PROJECTS

Password Generator — HTML5, CSS3, JavaScript [Repo](#)

- Built a lightweight, browser-based password generator with customizable length and character options.
- Implemented client-side logic in vanilla JavaScript to generate strong, random passwords instantly.
- Designed a clean, responsive interface using HTML5 and CSS3.

Avi Ate Music Player — HTML5, CSS3, Vanilla JavaScript [Repo](#)

- Developed a fully functional music player supporting play, pause, skip, and playlist navigation.
- Used vanilla JavaScript to manage audio playback state without external libraries.
- Focused on an intuitive, minimal UI for a smooth listening experience.

Crypto Project — JavaScript [Repo](#)

- Built a project exploring cryptocurrency-related data and interactions using JavaScript.
- Applied core programming concepts to handle dynamic data on the client side.

INTERESTS

- Actively exploring Frontend Development, C Programming, and open-source collaboration on GitHub.
- Aspiring Full Stack Developer, currently building projects in full-stack web development.

ACHIEVEMENTS AND AWARDS

- 2nd Runner-Up at Smart India Hackathon (SIH) 2025 Finale, ranking among the top 3 out of 800+ competing teams nationwide.
